Another peculiar fact in connection with the fire is the fact that when Dr. Scanlon discovered the smoke coming from the third story of the building the electric lights in the clubroom were turned on, although the sevard is positive that these lights were extinguished when he closed the rooms for the night. It is surmised that if this fire was of incendiary origen the fire bug, in order to escape uncomfortably deter the electric lights in order to lessen the detection of the blaze from the outside.

SKIN ROUGH AS BARK Baby Boy Had Intense Itching Humor

- Scratched Till Blood Ran. FOUND A CURE IN CUTICURA

"Our son, two years old, was afflicted with a rash. After he suffered with the trouble several weeks I tock him to the doctor but it got worse. The rash ran together and made large blisters. The little fellow didn't want to do anything but scratch and we had to wrap his hands up to keep him from tearing the flesh open till the blood would run. The itching was intense. The skin on his back became hard and rough like the bark of a tree. He suffered intensely for about three months. But I found a remedy in Cuticura Soap and Cuticura Ointment. The result was almost magical. That was more than two years ago and there has not been the slightest symptom of it since he was cured. J. W. Lauck, Yukon, Okla., Aug. 28 and Sept. 17, 1908."
